

Why Shabbos Nachodesh?

Why the first commandment given to the Jewish people to set up a calendar? We must sanctify time? We're not concerned about building Temples in Space. We're concerned about building Temples in Time? Shabbot, etc. That's why we're not so concerned about Art, etc., but Sound. Sound concerned with Time. Light the Eye with Space. Until very recently never anyway to preserve sound. Each Sound had to be listened to carefully. Sounds create mood but not static, must be recreated. Man, therefore, must be active. Light, on the other hand, can just be enjoyed. Man all he has to be is passive.

Sound Jewish

Light - Goyish

Jewish - Man the Actor

Goyish - Man the Passive Receiver
